● Available for a full-time internship from March 29 to July 29, 2027.

Highlights

- **Spooki**, a mobile app shipped solo on both stores: **1,400+ users**, **5/5** on the App Store, featured on Télématin.
- I work with **AI agents** (mainly Claude Code): I do the thinking, the AI writes the code, I check the result.
- Favourite ground: **loops** optimised end to end where agents grade themselves on **measurable facts**, with as few prompts as possible.
- **2 developer roles** in companies and a level 5 RNCP **web developer** qualification already earned.

Experience

Software developer (internship) · Music Work Aug - Dec 2025 · Paris

- Scheduled playlist broadcasting on the player: **priority system**, production rollout.
- **Critical bug** fix, unit tests, Angular newsletter module replacing Mailchimp.

Kotlin Multiplatform, Angular, TypeScript

Web developer (apprenticeship) · History Group Oct 2023 - Jul 2024 · Paris

- Frontend development and task **automation** in TypeScript and Node.js (RNCP TP-01280 qualification).

Lighting crew (internship) · Disneyland Paris May - June 2022 · Marne-la-Vallée

- **Four weeks** in the lighting department: shows and lighting across both parks and the hotels.

Projects

Spooki · Founder, full-stack developer Since 2023

- Horror movie discovery by community **scare score**, trademark filed with the INPI, sole proprietorship.

Flutter, Node.js, TypeScript, Prisma, MySQL, Docker, GitHub Actions, Grafana / Prometheus / Loki

Notes Agent · Open-source AI agent 2026

- An idea jotted on iPhone mid-workout: by the time I'm back, it's **coded on GitHub** by Claude Code.

Python, AppleScript, launchd, Claude Code CLI

Loupe · Epitech hackathon 2026

- Reliability checker for journalists: **5 AI models** cross-checked, only their consensus is shown.

Next.js, TypeScript · Claude, GPT, Gemini, Grok, Mistral

AuthButtonKit · Open-source Flutter package published on pub.dev 2023
